

RS RAINSHADOW™ TUNA POPPER™ ROD BLUEPRINTS

The Jaguar Design team held nothing back during the development of the brand new RainShadow Tuna Popping blanks. These 4 new models cover the entire range of what anglers want for Tuna popping rods and presentations.

Developed in conjunction with some of the finest anglers in the world, the new RainShadow Tuna Poppers feature state of the art design techniques. They are 2 piece blanks where the ferrule is down close to the butt end so it does not affect the blank action, and the ferrule is a tip into butt design to keep the diameter small. We blend thin ply E-Glass material with 24 ton RX6 graphite, then we wrap the entire blank tip to butt with a proprietary carbon filament wrap in the hoop direction for added strength without adding weight. The wall thickness on these new blanks is off the charts and adds a ton of strength and lifting power. These can fight the largest Tuna out there and come back for more. There are 4 models and two lengths to choose from. Setting a new standard for performance in the Tuna Popping market, these blanks will impress

TECHNOLOGIES

Tuna Popper

| MODEL | COLOR | LENGTH | PCS. | LINE WT. | LURE WT. | BUTT DIA | TIP TOP | ACTION | POWER | BLANK WT | APPLICATION |
|-------------|-------------|--------|------|-----------|----------|----------|---------|--------|-------|----------|--|
